

Leading Companies Not Using Deca-BDE!

Michigan Network for
CHILDREN'S
Environmental
HEALTH

Alternatives to deca-BDE are being widely used by industry in the production of mattresses, residential furniture, televisions, and computers (the products addressed by HB 4699). Companies are meeting fire safety standards while not using deca-BDE by redesigning products, or by using alternative flame retardants. Support HB 4699!

Companies that DO NOT USE DECA-BDE

TVs/Computer
