* U.S. Census Bureau, Census 2000

** %EBLL is calculated as follows: Number of Children w/EBLL divided by (Number of Children Tested minus Children w/elevated capillary tests, not confirmed by venous)

Note: Counts of children tested and blood lead levels are reported from Michigan Department of Community Health, Childhood Lead Poisoning Prevention Program statewide database.

Note: Column for "Children Tested" reflects capillary and venous blood tests. Columns for "Children w/confirmed elevated blood lead levels" reflect venous tests only.
